EDUCATION

University of Utah – David Eccles School of Business

Salt Lake City, UT

Bachelor of Science in Information Systems

- GPA 3.7
- Awarded Full Tuition Scholarship
- Member of the Tek Club

EXPERIENCE

Utah Jazz & Utah Mammoth

Salt Lake City, UT

Data Asset Management Intern

Oct 2024 – Present

- Manage and catalog extensive digital asset libraries including game footage, photography, and promotional media.
- Automated the tagging and categorization process using JavaScript, reducing asset retrieval time by 80%.
- Contributed to the launch of the Utah Mammoth brand by assisting with data integration and content management, gaining insights into brand strategy and cross-functional collaboration.

Optix Solutions

Salt Lake City, UT

Software Developer

Aug 2024 – Present

- Develop internal tools and new feature sets for Optix, a platform serving logistics and operations for auto detailers.
- Build and refine UI components using React and Firebase to enhance user experience and platform performance.
- Lead QA testing and improvement cycles based on stakeholder feedback, improving platform stability and usability.
- Participated in planning meetings to understand user needs and set development priorities.

Fidelity Investments

Salt Lake City, UT

Full-Stack Software Engineering Intern

May 2024 – Aug 2024

- Built and maintained Jenkins CI/CD pipelines integrated with Docker and Kubernetes for application modernization.
 - Built scalable microservices using Python, Go, and Groovy deployed to cloud environments.
- Worked with DevOps and security teams to streamline application updates and reduce downtime

PROJECTS

- **Monthly Blooms by Shelby Floral** — monthlyblooms.com
Developed a full-stack subscription platform using React and Firebase. Integrated Stripe billing, ZIP-code validation, an admin dashboard, and real-time delivery tracking to streamline customer experience.
- **Shelby Floral** — shelby-floral.com
Developed and maintained a custom marketing and ordering site for a floral design business, featuring image galleries, SEO optimization, and brand storytelling.
